

SOMNIA NURSE ANESTHESIA PROGRAM

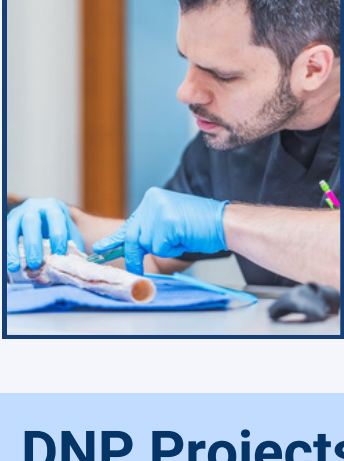

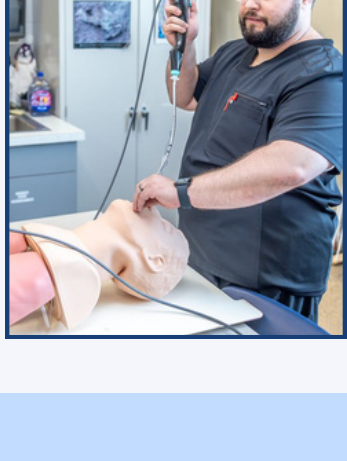

Simulation Immersion II July 28th through August 1st

This summer, the NAR2s came back together for Simulation Immersion II—a week of skill-building, teamwork, and inter-professional learning.

Highlights included:

- Pediatrics, CVL placement, Difficult Airway station, neuraxial blocks, central lines insertion, POCUS, and peripheral nerve blocks
- OB Interprofessional Education (IPE) with the PA and Undergraduate Nursing students.
- Fun bonding activities like **Top Golf** and **team sponsored dinners**

We can't wait to welcome them back on campus in **Fall 2026!**

DNP Projects

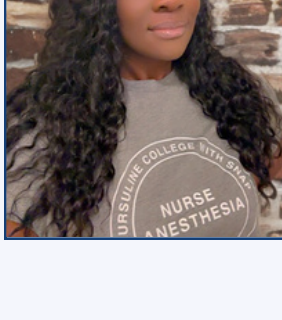

Our Class of 2026 is fully engaged in developing their DNP projects, tackling important topics such as massive transfusion protocols, intraoperative hypothermia, PACU handoff procedures, and more. This semester, they are finalizing their proposals and preparing to move into the implementation phase in Spring 2026. Meanwhile, the Class of 2027 has begun exploring potential project topics as they take the first steps in their DNP journey.

AANA Meeting

Several members of the Class of 2026 and 2027 recently attended the AANA Annual Congress in Nashville, TN. This event offered an excellent opportunity for continued education and networking alongside more than 4,000 CRNAs and NARs. They gained valuable insights from leaders and educators from across the country while connecting with fellow NARs to share experiences.

Kelly Claridge, Levi Davis and Nathan Franklin all received scholarships from Somnia to attend the AANA Annual Congress in Nashville, TN.
